

**Catarrh of the Head**

"Peruna  
Cured me  
In Six  
Weeks."

5,000,000  
People  
In This  
Country  
Have  
Catarrh.

Mr. Tom F. Dady, No. 3 Manhattan St., Rochester, N. Y., writes: "I was troubled with catarrh of the head for many years before I paid much attention to it, but a few months ago I was so annoyed by headaches and difficulty in breathing through my nose, and my eyes smarted and looked so inflamed that I felt I must do something to relieve this state of affairs."

"I noticed one of your ads. in the paper, and then and there decided to try Peruna. I am pleased to say that it came up to all my expectations, for in six weeks it had driven the catarrh out of my system and I have not been troubled since."

Mrs. A. J. Tleman, 1122 Wyoming St., San Antonio, Texas, writes: "I suffered over nine years with catarrh of the head, nose and ears. Five bottles of Peruna have restored me my health."

**Caucasia.**

In the southern section of Caucasia agriculture is the principal industry. Wheat and other cereals, cotton and tobacco are produced. In Caucasia cattle breeding is profitable, while in the mountainous districts mining is carried on extensively. The mineral deposits include copper, silver, iron and manganese ores, cobalt, sulphur, quicksilver, naphtha and rock salt. The country also produces a great deal of petroleum. Rugs, woolen goods and harness are made. Caucasia is governed by a general governor acting for the emperor and local zemstvos.

## Most Skin Trouble Readily Overcome

The Active Principle of a  
Famous Remedy Works  
Wonders.

Many people have marveled the way S. S. S. overcomes skin troubles. The explanation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries and veins.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood streams just as naturally as the most nourishing food elements.

It is really a remarkable remedy. It contains one ingredient, the active principle of which is to stimulate the tissues to the healthy secretion of its own essential nutrient. And the medicinal elements of this medicine blend together as just as essential to well-balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not one drop of minerals or drugs is used in its preparation. Ask for S. S. S. and just insist upon having it. And if you desire skillful advice and counsel upon any matter concerning the blood and skin, write to the Medical Department, The Swift Specific Co., 329 Swift Bldg., Atlanta, Ga.

Do not allow some zealous clerk's eloquence over something "just as good" as S. S. S. to fool you with the same old "patent" drugs. Beware of all substitutes. Insist upon S. S. S.

**Evidence.**

She—"The Idea! Here's a professor in Philadelphia who says the hobble skirt is 3,000 years old." He—"Well, dear, I see a lot of 'old things' wearing them."

## Joyful Anticipation of Motherhood

There is apt to be a latent apprehension of distress to mar the complete joy of expectation. But this is quite overcome by the advice of so many women to use "Mother's Friend."

This is an external application designed to soothe and lubricate the muscles and to thus so relieve the pressure reacting on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains said to cause nervous, morning sickness and many local distresses.

Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since our grandmothers' earlier years and is known throughout the United States it may be easily inferred that it is something that women gladly recommend.

"Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address Bradfield Regulator Co., 307 Lamar Bldg., Atlanta, Ga.

## EXTRA SESSION SEEMS LOOMING

Fight on Ship Purchase Bill

FATE STILL UNCERTAIN

If Ship Purchase Measure Stays Before Senate, Extra Session Will Be Inevitable to Pass Supply Bills.

With twenty-one working days ahead of the sixty-third congress, the fate of the government ship purchase bill still remains uncertain.

Whether it will be held before the senate to the exclusion of appropriation bills until passed or until the gavel ends the session March 4, must be determined by the president and administration leaders. Some definite understanding on this point probably will be reached within a few days. The president is expected to discuss the situation with senators who have stood valiantly for the bill through the last week of party rebellion.

Suggestions that Republican senators eventually might yield their opposition in order to take up appropriation bills and let the measure come to a vote are denied by minority leaders. They insist the bill cannot get to a vote.

Democratic senators championing the bill admit the situation is desperate. They realize their insistence on keeping the bill before the senate will mean failure of the great appropriation bills. This would make an extra session inevitable.

If it is determined that an effort should be made to pass the appropriation bills to avoid an extra session, the ship purchase bill, in the opinion of some of the staunchest friends, must be withdrawn. Even then there may not be time to pass the great supply measures. There are fights ahead on the naval and military bills, and the rivers and harbors bill is certain to provoke attack.

**IOWA RANKS FIRST.**

Wrests From Texas Title of Banner-Crop State.

Iowa has wrested from Texas the title of banner-crop state, the thirteen principal crops grown there last year being valued at \$351,450,000, according to the Agricultural Outlook, published recently. Illinois' crops were worth \$319,656,000, while Texas comes third, with \$288,335,000. Decrease in the value of cotton was the cause of the smaller value of Texas crops.

Kansas, with \$287,662,000, is fourth; Nebraska, with \$210,099,000, fifth, and Ohio, with \$207,337,000, sixth. Other states' crop values are: Georgia, \$155,167,000; Oklahoma, \$134,159,000; North Carolina, \$124,918,000; Kentucky, \$118,325,000; Alabama, \$114,255,000; Tennessee, \$106,450,000; South Carolina, \$101,374,000; Mississippi, \$93,882,000; Arkansas, \$81,883,000; Virginia, \$73,995,000; Louisiana, \$67,767,000, and Florida, \$19,105,000.

## A WONDERFUL HEALING INFLUENCE IN KIDNEY TROUBLES.

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as Stone in the Bladder and prescribed Lithia Water. I took Lithia Water and Tablets for some time, and received no relief from them. I stopped taking medicine for some time, later having some Swamp-Root in the house I decided to try it and felt much relieved. While taking the second bottle commenced to pass Gravel in urine until I had passed in all at least a half dozen or more and had not suffered the slightest since—and in all have taken one bottle and a half and feel very grateful to Swamp-Root.

Yours very truly,

H. W. SPINKS,

Camp Hill, Ala.

Personally appeared before me this 16th day of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that the same is true in substance and in fact.

A. B. Lee,

Ex. of Justice of Peace.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Laurens Advertiser. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

**U. S. Not U. S. A.**

Do you know what is the proper abbreviation of the United States? It is U. S. It is not U. S. A. There is widespread and apparently utter ignorance of this fact. The initials U. S. A. is the official accepted abbreviation for United States army, and does not, under any possible conditions, ever mean United States of America. At this time, when so many manufacturers in this country are branding their goods as made in the United States, this is important. The brand U. S. A. upon anything means that it was manufactured in the United States army. "Made in U. S." is the brand which should be put upon all goods manufactured in this country.—Knickerbocker Press.

## GREAT STRUGGLE ON WARSAW FRONT

Kaiser and Czar Are Watching Troops

RUSSIANS TAKE TRENCHES

In the Snowy Carpathians and In East Prussia Battles Are Raging—Germans Send Reinforcements to the Front.

With the German and Russian emperors as eye-witnesses, the armies of Russia and Germany are still contending for the positions that protect the Polish capital of Warsaw from the invaders. The Russian emperor has been at Russian headquarters for several days and the German emperor announces that the German emperor has joined the generals and has actually visited troops in the trenches.

Nothing has been disclosed as to the progress of the battle which, when last reports were received, was raging with unabated fury.

The Russians, according to Saturday's official statement, had strengthened their positions on the western bank of the Bzura which they had crossed near its mouth, and captured another German vantage point. They also captured a long line of German trenches near Borjlmow which has been the center of most desperate fighting.

In East Prussia another big battle is developing, the Germans having sent reinforcements apparently from their Bzura front to that region. In the Carpathians, while their right is advancing, the Russians are able only to report that their left has checked the Austro-German offensive.

With regard to all this fighting the German official simply says:

"No essential events have taken place."

Fighting in the west is a repetition of that of the preceding days. There have been lively artillery duels and a few infantry attacks in which both sides claim to have gained some ground.

**MEXIC SITUATION GRAVE.**

Withdrawal of Diplomatic Corps Threatened.

So serious has the friction become between the Carranza government and members of the diplomatic corps in Mexico City that the withdrawal of many foreign legations is now threatened.

Some of the prominent diplomatic representatives of European countries already have cabled their home governments suggesting that inasmuch as communication is growing more and more restricted and little respect is given them by the Carranza authorities, it might be advisable to unite with other governments in a movement to abandon all foreign legations in Mexico.

State department officials declined to discuss this phase of the situation. As the American embassy has been closed since the rupture with the Huerta government, the action on the part of the other diplomatic missions is being considered without consulting the United States, so far as is known.

The plan of the diplomatic corps in Mexico City, which is understood to be acting as a unit, is to leave affairs in Mexico in charge of consular officers. This would mean practically a severance of diplomatic relations by all countries and present a unique status for Mexico in the family of nations.

**NAVAL BILL PASSES.**

Appropriation Bill Is Slashed Over \$6,000,000.

Over a strenuous protest from Majority Leader Underwood the house voted to retain in the naval appropriation bill the provision for construction of two new dreadnaughts and then passed the bill without roll call.

Mr. Underwood declared the national treasury was facing a probable deficit next year of \$35,000,000, and economy advocates, led by him, succeeded in striking out appropriations aggregating more than \$6,000,000 for five submarines, a transport and a hospital ship.

**Why Wisdom Teeth.**

The so-called wisdom teeth are the two last molars to grow, and they have no real connection with the possession of wisdom. They take their name from the time of their arrival, from twenty to twenty-five years, at which age the average person is supposed to have reached years of discretion. Cutting one's wisdom teeth means simply arriving at the point of completeness in physical equipment, and has no direct relation to mental equipment. The possession of these teeth is no guaranty of wisdom. They grow at about the same age in people whether they are wise or not.

See the wedding scene in the opening episode of "Runaway June" at The Idle Hour tonight.

**Near English.**

Patience—"They say that nearly two-thirds of the mail matter of the world is written in English." Patricia—"Oh, you need not look so pleased over it. That doesn't include yours."
